- Basketball
- Handball
- Volleyball
- Climbing - Rock Climbing
- Video Games

About Me

As a Computer Engineering student, I have spent the past two years working on projects involving image processing with OpenCV and mobile application development using Flutter. I also gained hands-on experience with hardware and embedded systems through projects on Jetson Nano and Raspberry Pi platforms. My eagerness to learn, combined with strong communication and teamwork skills, supports my growth as a motivated and solution-oriented future engineer.

Work Experience

Youth Republic Campus Ambassador of Balıkesir University

Vodafone Campus Ambassador of Balıkesir University (November 2024 - June 2025)

(I gained experience in brand representation, corporate interviews and reporting, advertising and marketing techniques.)

Education

Bachelor of Computer Engineering Institution:
Balıkesir University , 2023-2027. 2nd Grade Now
